## **Come Back Home**

**Group 1 Crew** 

Lord I've got a problem And I can't find the solution- no I'm seeing all these people Always searching for improvement We're always looking for that next thing to satisfy But all I see is broken hearts, so many sleepless nights Help me Lord to help them Heal that empty feeling inside and we say

Chorus: So if you really want to know who you are No more wondering and looking so far The truth is right in front of you- don't let it go You need to- come back home Cause everything you need you can find in Him Faith in yourself to believe again Don't let all this time just pass you by You need to- come back home

No I don't wanna be alone no I can't do it on my own no...

I'm lookin' all around the world and trying to find who I am And realizing more and more that it's the plight of all man I wanna know what am I here for and where do I stand Within the scope of all eternity and destiny's plan I keep replaying all the things they told me when I was young That I could be whatever I wanted to be But I'm far from the dreams I had Cause all I ever seem to feel is bad I'm trying not to be like dad Or trying to follow every fad - no

From young to oldest we've all Asked ourselves the same question Questioning if there's something more Then where we all have been Many have spent their lifetime In research to find solutions For the purpose of man-kind And what's the real reason Why we're here and why do We operate the way we do And why do continue to Wonder with out any clues We won't put up no more with Those who try to make us clones We find ourselves in the blood Of He who sits on the throne

So, so lost I just can't find my way Lord I really need you to help me So, so lost I just can't find my place
