

# Let's Go

## Group 1 Crew

Andale, andale  
It's your boy Toby Mac  
With the Group 1 Crew  
What you got, bing  
What you got girl? Come on

I've heard life is like a box of sweet delights  
But in reality every day is a fight  
So we hold on to the promise  
That things happen for reasons  
We may not understand it  
But faith keeps us believin'

And I know that we can make it  
With faith in our hearts, we can face it  
Any mountain that comes our way  
We can move

There's never a right time  
To get up and live life  
You only got one try  
(Andale, andale)  
So take what you've been given

And make time  
To turn someone's day bright  
And change how we live life  
(Andale, andale)  
The future's what we make it

So let's go  
(To the beat y'all)  
So let's go  
(To the beat y'all)  
So let's go  
(One life, one world y'all)  
The future's what we make it

So let's go  
(To the beat y'all)  
So let's go  
(To the beat y'all)  
So let's go  
(One life, one world y'all)  
The future's what we make it  
So let's go

We in a time when sun don't shine in all places  
Typically nose to the grind just to make it  
Take the same old, see the same faces  
Sayin' it's the hand we've been dealt so we take it

But if life's what we make it  
I'm a turn the world around  
Make the poor people famous  
Make the B the new A list  
Give your Facebook page a new face-lift

And every status you post  
Will compliment who you are  
The whole world's dark  
While you shine like a star  
Then bring hatred to an end  
And watch the honor  
Of our generation come alive again

There's never a right time  
To get up and live life  
You only got one try  
(Andale, andale)  
So take what you've been given

And make time  
To turn someone's day bright  
And change how we live life  
(Andale, andale)  
The future's what we make it

It's the right time  
To get up and live life  
You only got one try  
(Andale, andale)  
So take what you've been given

And make time  
To turn someone's day bright  
And change how we live life  
(Andale, andale)  
The future's what we make it, so let's go

Yeah, we got brighter days ahead  
I know you got dreams, I believe in them  
I know you got problems too, forget them  
'Cause life's too short so let's begin

Yep, see it's all about you  
You are the change the world needs to view  
'Cause when we change the world changes too  
And it's a small world after all

'Cause I got something that'll change the world  
Moms to the dads, every boy and girl  
All I wanna do is show ya how it could be  
If ya open up and let your spirit free

So let's go, let's go, let's go, let's go  
Let's go, let's go, let's go
