

# Take It There

Group 1 Crew

I been through way too much just to give up, so we ain't slowin  
down for no one  
There's a world to wake up, you hear us callin get the phone  
Our persona, dreamers till we die and we all go homa  
Succeed beyond what anyone believed you could've sown up

Crazy, think you gonna pay me, crazy for sellin out my body jus  
t to make it  
You ain't heard the news papers never gonna change me  
Though I'm makin moves and you can catch it on the daily  
Fellas say they like my flow, but let my body show,  
Then maybe I can climb the charts up on the radio  
Decided long ago my mind is gonna take me  
Everywhere I gotta go so no no they won't play me

[Chorus:]

Ain't gotta see it to believe  
There ain't nothing outta reach  
We got it in us to succeed  
If you want it gotta take it there (2x)

Eye on the prize no room for lost time I got money on my mind s  
ike rewind got my future on my mind future future on my mind dr  
eamin of the day these young bucks come alive cause you can be  
whatever you like you just gotta chase it and fight lose sleep  
if u have to at night and I promise the day will come when you  
shine call me the fireman cause blazin this land with a torch  
no man can take for yo hand so let the game begin and see you a  
t the finish line mang

I ain't gotta show you what I got in my driveway  
I just gotta show you what I got on the highway  
I ain't gotta tell you what I spend to stay fly hey  
I just gotta tell you what it takes to lean my way  
You ain't gotta ask about accounts or my money  
You just gotta know I'm in the kitchen cause I'm hungry  
I ain't tryin to be the next jay z and Beyonce  
I just wanna girl who can respect what her mom say  
No matter where I go bet I know to stay low low low  
So when we blow betta know it's gonna show oh oh  
That he done gave me errrrthing to make it grow oh oh  
We stack chips for the after life show you right
