

Love Will Save Your Soul

Grouplove

Walking down the street
Thinking your so bold
So bold!

See your mom and dad and they're so cold
So cold!

Love will save your soul
I'm feeling so alone and growing old
Love will make no sense
But lose control
Lost my train of thought and now control

Love will always save your soul
I'm feeling so alone and growing old
Love, love, love,
Yeah love, love, love

?
Teachers cracking rules and now the law
Love will save your soul
Feeling so alone and growing old
Love, love, love
Yeah, love, love, love

Love will always save your soul
Your soul
Your soul

Love will save your soul
Love will save your soul

Love will always save your soul
Love will always save your soul

Love will save your soul
Love will save your soul

Love will always save your soul
Love will always save your soul

Love will save your soul
Love will save your soul
