

Beautiful World

GS Megaphone

I'm lying in bed, but I can't sleep.
It's like I'm locked in this bed
On the greatest night you've made so far.

I take a walk outside beneath the stars,
And as I look all around me,
I remember how in love we are.

It's a beautiful world. What a great idea.
Your beautiful song is all I can hear.

I see the wind moving through the trees,
And it reminds me of how your spirit moves in me.
I lie in the grass, and stare at the sky,
And thought I've seen it a thousand times
It looks new tonight.

It's a beautiful world. What a great idea.
Your beautiful song is all I can hear.
Your beautiful colors surrounding me.
Your beautiful art is all I can see. It's a beautiful world.

Good night my prince. I'm going to try to rest.
Oh but here comes a sunrise too beautiful to miss
