

## Get Over It

Guadalcanal Diary

Turn your cheek, get over it  
Lest you speak, get over it  
Thoughts you keep, get over it  
It's only life so don't get mad  
It's not like time is all you had  
You got your jaw set in place  
It's making lines across your face

I hate to say you're not the sun  
The world around is much more fun  
I know it hurts to bear the shame  
Of people who don't know your name

I know that this is nothing new  
You find someone to drag you through  
Decieve yourself about your best  
Come to find you've failed the test
