# All I Wanna Do

**Guano Apes**

All I wanna do is keep your head up high
Run the milky way and make your mama smile
All I wanna do is keep your head up high
Run the milky way and make your papa cry

I got you deep in my heart
You know you're keeping me alive
I m so addicted to you
Too bad we are born to satisfy
And when the truth wakes you up
And it gets hard to believe
I'm gonna kick you off the line
Cause you're under control
Put your fist in the sky
If you want the control

All I wanna do is to rock with you
All I wanna do is to make it heard by you

And now you're standing in the line
Waiting for someone to explain
don't ask for solutions
When you love to live the pain
And with a hole in your heart
You keep waitin on your knees

I have to kick you off the line
Cause you're under control
Put your fist in the sky
If you want the control
All I wanna do is to rock with you
All I wanna do is to make it up on you
We fall we fly
We pretend
Were gonna do it again
We love and we fly
We just live in the world and die
I'm gonna do it again and again and again and again

Deep in my heart
I got you deep in my heart
You know I'm keeping you alive

All I wanna do is to rock with you
All I wanna do is to make it up on you
All I wanna do
All I wanna do

All I wanna do is keep your head up high
Run the milky way and make your mama smile
All I wanna do is to keep your head up high
Run the milky way and make your papa cry
