

# Close to the Sun

Guano Apes

We were glowing like a flame  
Under cover night and day

You took me up so high  
It felt like a paradise  
Breathing you and breathing you out  
We fell like shooting stars  
Like we were not too far  
Nowhere to go but down

It was so beautiful  
Before the fall  
I'm flying too close to the sun

It was so beautiful  
Before the fall  
I'm flying too close to the sun

I was so yours  
I felt the earth turn  
Shooting so high  
We had to get burn

It was so beautiful  
Before the fall  
I'm flying too close  
I'm flying too close to the sun

Oh I miss you  
Missing me  
And over things we'll  
Never be

You took me up so high  
It felt like a paradise  
Breathing you and breathing you out  
We fell like shooting stars  
Like we were not too far  
Nowhere to go but down

It was so beautiful  
Before the fall  
I'm flying too close to the sun

It was so beautiful  
Before the fall  
I'm flying too close to the sun

I was so yours  
I felt the earth turn  
Shooting so high  
We had to get burn

You've written in my heart  
I'll always remember you  
Remember me  
Together but apart

I'll always remember you  
You set me free
