

Like Somebody

Guano Apes

I made you a poster boy
We gonna eat gold
I feel like a junky lately
A little overload
You're waiting for the something
Something never seen before
To become as happy people
We're always begging for

No silver lining
Or dreams and golden tears

I made you a poster girl
We're gonna eat gold
So welcome to the jungle baby
Time to get u-u-up
You wanna have a party
Yeah you wanna have it all
Like the really happy people
You close your eyes and moan

No silver lining
Or dreams and golden tears
No silver lining
Is waiting me for free

You just have to look that way
Like somebody
Like somebody
I don't wait for you
to pray
With a warning to say my name

Common and dig that dirt
It's gonna be cold
We are the monkeys baby
It's time to ro-o-ock
I wanna move your body
And turn you o-on
And if you join this circus
We gonna get it all
Hear the vulture
Circle above my head
They will find us
If i don't make my step

You just have to look that way
Like somebody
Like somebody
I don't wait for you
to pray
With a warning to say my name

It's gotta be NOW
Yeah it's you, man
When the words just burn inside my love
It's gotta be NOW

Yeah it's true, man
When we just spin around
