

## Plastic Mouth

Guano Apes

It's a long life  
a long life you have to live  
for only a short time  
exit will let you leave  
are you dancing  
dancing all alone  
with assassins who stab you down

I know how to defend  
when you are in my head  
I know that a storm is growing  
I know how hate everything  
but soon or later  
I will win

Won't you take off  
take off that plastic mouth  
you scare us  
to death and more than that  
are you sharing  
sharing the blood of your veins  
to marry the world and its pain

We are climbing  
on our faith  
we are crying with  
pink sour plastic mouth  
we are climbing  
we have to beat them  
with p.s.p.m
