

Running Out the Darkness

Guano Apes

So now we are driving the road up again And I wanna my soul just rising Before my eyes do shut the light So now I overcome all the rats in the house And I wanna my soul just rising Before my eyes do shut the light

Now I role the odd way Running of the darkness Running till I fade away I would always take my own way Running of the darkness Running to the dawn

She can not leave me She can not leave me You can not leave me

So now I am climbing the road up again And I wanna my soldiers flying Down the clouds into the sky

I wanna feel like a wave in heaven around me I'm not waiting I wanna catch you so man and hell have a fight for me I'm not waiting I wanna feel like a wave in heaven around me I'm not waiting I wanna catch you so man and hell have a fight for me What about me

Now I role the odd way Running of the darkness Running till I fade away I would always take my own way Running of the darkness Running to the dawn

She cannot leave me She cannot leave me You cannot leave me

So why can't (don't?) you leave me? Yeah So why can't (don't?) you leave me? Yeah
