

She's a Killer

Guano Apes

She took a gun with your blood
In your hands
She pulls a trigger
With a blink of romance
Give me your nightmare
Give me all that she can
You are just a freak
Coming up from the damn
She's not your friend
She's not your angel
Like she said
She's not afraid
She's a killer
I'm coming up
I'm counting to six
I'll give you fire
If you show me your necks
I'll give you nightmare
I'll give you all that I can
I'm just a beast
Coming up from the damn
We are not like friends
We are just like killers
In our bed
She's not a friend
She's a killer

You can't pull me down
When I'm around
You better stay away
Before you'll leave afraid
The hunters on your side
You can't pull me down
I'm a murderer
You'd better stay away
Before you leave afraid
The beast in my eyes

She's not a friend
She's a killer

You can't pull me down
When I'm around
You better stay away
Before you'll leave afraid
The hunters on your side
You can't pull me down
I'm a murderer
You'd better stay away
Before I leave afraid
The beast in your eyes

(You can't pull this down
We are murderers
We only gotta do
What we're supposed to do
The hunters stay alive)
