

Staring at the Sun

Guano Apes

Here comes the sun
And won't you come over
It is time to burn
I've waited so long
And now I'm kindly around
You can't run away
The show is not over
At that place when you return
Just close your eyes
I'm gonna get you up
Gonna get you up
Till you'll sing

You wanna leave this all before you
Start to sing the Rock'n Roll (2x)

I can't get enough
And I won't stop dancing (dancing)
You may kiss my ass
'cause you've been treating me right
We are under control
So stop the leaders
Send em up to the moon
So they can watch the sun
I gotta burn'em up
I burn'em up till they sing

You wanna leave this all before you
Start to sing the Rock'n Roll

I don't know what we are made for, I'm gonna be here and sing my song

You wanna leave this all before you
Start to sing the Rock'n Roll

I will shine on and try to set me down, don't you know (2x)

You got nothing, you got nothing on me (4x)

You will ride the day
Stop to walk the road

I don't know what we are made for, I'm gonna be here and sing my song

Will you redefine your mind/ FEEL YOU REALLY FIND YOUR MIND?

I will shine on and try to set me down, don't you know (2x)
I will shine on and try
I will shine on and try
I will shine on and try to set me down, don't you know
