We Use the Pain

Guano Apes

Could you step away, I'm a vicious girl could you fill the break we're on the right way, to swing the little axe it's the right day, to give up the tax

We use the pain, for our fantasy we need some pain to find the right way we love the pain and want some more of it control the pain, chickenhead !

Right way turning, listen we are learning head full of noise chickens got no choice heads are rollin chickenblood is stolen the rest of the chicken wants to picke-nicken

Could you feed your chicken, cause I'm hungering drinks and chips for free the muscles like Bruce Lee

We use the pain for our fantasy we need some pain to find the right way we love the pain and want some more of it control the pain, chickenhead

Right way turning listen we are learning ...

Painfull, the table's red big storm and no regret dark side, we use the pain captain, we are lost insane mother, we cut the dump, mother mother, we all, we all

Right way turning, listen we are learning ...
