

# You Can't Stop Me

Guano Apes

Someone is coming out to see the light of our destination  
a maniac neurotic fool who wants to jump off the isle  
how can you know that I'm the one  
who lives the maddest vacation  
another road another trial  
where's the difference  
tell me right

You can't stop me  
I love the world with all its lies  
You can't stop me  
I'm close enough to kiss the sky  
keep it to myself  
keep it to myself

Why are you coming out to see the road of last destination  
I won't look back for the shadows  
they're growing up to me  
we're trapped in this song  
so we leave them to head our salvation  
Another you another me  
where's the difference  
tell it to me

You can't stop me  
I love the world with all its lies  
You can't stop me  
I'm close enough to kiss the sky  
keep it to myself  
keep it to myself

Roadcracker  
Bonebreaker  
Street taker
