

Lift Me Up

Guardian

Once I was alone
Some mistakes in my past
Had left me living on my own
My only prayer
Was the fate of my past
I wondered if you were still there
I was hiding in the shadowlands
Scared to admit I was a broken man
Now I'm missing you
Every thought every word everything
Leads me back to you
Can you forgive me
Just a touch of your hand
And I'll know that your love is true
I surrender all I've kept from you
Lord I'll do anything to be with you
Reach out your hand
Lift me up from this place I have fallen
Lift me up
Reach out your hand
Lift me up from this place I have fallen
Lift me up
Lift me
And I surrender all I am to you
Lord I'll do anything to be with you
Reach out your hand
Lift me up from this place I have fallen
Lift me up
Reach out your hand
Lift me up from this place I have fallen
Lift me up
Lift me up
Lift me up
