

Never Say Goodbye

Guardian

You and I, we've been through some hard times
You think of all the times I've seen you fall
But through all the rain and all the grey skies
I haven't lost any love for you at all

If your eyes could see how much you mean to me
You'd take my hand and my love would set you free

It's another heartache
And it's another day
You sit and watch your life pass you by
Like a cold winter's day
You take a look around you
You see the fragments of your broken dreams
But we pick up the pieces and we carry on

If your eyes could see how much you mean to me
You'd take my hand and my love would set you free

And I'm never gonna say goodbye
I'm always standing right by your side
And no matter what you do
You know my love belongs to you
And I'm never gonna say goodbye

And everyday life seems a little bit colder
Waiting for love in the pouring rain
You can cast all your cares upon my shoulders
I gave my Son for you
And I'll never turn away from you

If your eyes could see how much you mean to me
You'd take my hand and my love would set you free

And I'm never gonna say goodbye
I'm always standing right by your side
And no matter what you do
You know my love belongs to you
And I'm never gonna say goodbye
