

An Earful O' Wax

Guided by Voices

When you come around
I can still be found in another world
Pick a number or a name
It's my favorite game in another world
Chorus: Hey man what was that we said
I'm going deaf
I chase the widely open spaces
Built in my head
Can't make out what you say
Won't pretend to even care in another world
When it all gets bad
Everything turns off in another world
Chorus
And the shadow of the adversary's
??Filled?? and I shall play
Pass the plate and let us pray
Cause it's only a trick of the light
(liquidy vocals that I can't figure out)
