

Atom Eyes

Guided by Voices

I'm dreaming and so it must be true
Nothing else could look as good as you do
And so in a rocket go
Up to where the astros flow into space
Don't hold me down

Atom eyes, don't worry your brain
Take a break from everyday
Sell the house, the car, the pain
(Just be sure to live again)
Atom eyes

I'm running away from your clues
Atomizer sprinklers are spraying perfume
Escape a lobotomy
There's a million heartstrings ready to fly
Let's pull them now

Atom eyes, don't worry your brain
Take a break from everyday
Sell the house, the car, the pain
(Just be sure to live again)
Atom eyes

Atom eyes, don't worry your brain
Take a break from everyday
Sell the house, the car, the pain
(Just be sure to live again)
