

## Bright Paper Werewolves

Guided by Voices

come on, polluted eyeballs  
stop scouting out the fields  
jump up, bright paper werewolves  
and everybody, everywhere  
anyone can scratch  
and anyone can win  
so pull out another batch  
they want to get out of here  
but they can't find the exits  
they cling to the cinema  
and they can't find security  
then they finally got recognized  
so they left in obscurity and misery
