

# I Am a Scientist

Guided by Voices

I am a scientist - I seek to understand me  
All of my impurities and evils yet unknown  
I am a journalist - I write to you to show you  
I am an incurable  
And nothing else behaves like me

and I know what's right  
But I'm losing sight  
Of the clues for which I search and choose  
To abuse  
To just unlock my mind  
Yeah, and just unlock my mind

I am a pharmacist  
Prescriptions I will fill you  
Potions, pills and medicines  
To ease your painful lives  
I am a lost soul  
I shoot myself with rock & roll  
The hole I dig is bottomless  
But nothing else can set me free

and I know what's right  
But I'm losing sight  
Of the clues for which I search and choose  
To abuse  
To just unlock my mind  
Yeah, and just unlock my mind

I am a scientist - I seek to understand me  
I am an incurable and nothing else behaves like me

Everything is right  
Everything works out right  
Everything fades from sight  
Because that's alright with me
