

## Is She Ever?

Guided by Voices

Is she ever with intent when she likens herself to a crow?  
Will she crow and say bingo?  
"I'm a believer" she tells me  
But is she ever going to cry  
When the directors bark from out there in the dark  
Fly sister vibrate - you were automatically free  
The moment you came to me  
Is she ever coming back to me?  
Is she ever coming back to me?  
Say it loud and we shall see  
Is she ever coming back to me?
