

Melted Pat

Guided by Voices

Damn good, Mr. Jam
Melted Pat knows where she's at
She's copping a buzz
On something that was
Melted Pat thinks that it's good
And maybe she should
Cause it's always good
She's knocking around
She's always up to knocking around
She's always up to knocking around
She's knocking around
She's knocking around
Melted Pat she's losing her care
She's losing her hair
And now she's not there
Melted Pat she's telling me that
I'm living a lie
I'm wearing a tie
She's going away
She's always up to going away
She's always up to going away
She's going away
She's going away
