

## Melted Pat

Guided by Voices

Damn good, Mr. Jam  
Melted Pat knows where she's at  
She's copping a buzz  
On something that was  
Melted Pat thinks that it's good  
And maybe she should  
Cause it's always good  
She's knocking around  
She's always up to knocking around  
She's always up to knocking around  
She's knocking around  
She's knocking around  
Melted Pat she's losing her care  
She's losing her hair  
And now she's not there  
Melted Pat she's telling me that  
I'm living a lie  
I'm wearing a tie  
She's going away  
She's always up to going away  
She's always up to going away  
She's going away  
She's going away
