

## Office of Hearts

Guided by Voices

roll out the pain killers  
we'll have a killer wig out  
sleepy boys don't look  
it's not enough said  
or a statistical occurrence  
it's octopus, caveman  
drinking with the enemy  
he's got a girl on every arm

he sits down and circulates  
in the office of hearts  
he's case closed middleman  
in the office of hearts  
he'll steal you away

(he sits down and circulates)  
come feel the softest parts  
in the office of hearts

(he sits down and circulates)  
come feel the softest parts  
in the office of hearts...
