Office of Hearts

Guided by Voices

roll out the pain killers
we'll have a killer wig out
sleepy boys don't look
it's not enough said
or a statistical ocurrence
it's octopus, caveman
drinking with the enemy
he's got a girl on every arm

he sits down and circulates in the office of hearts he's case closed middleman in the office of hearts he'll steal you away

(he sits down and circulates) come feel the softest parts in the office of hearts

(he sits down and circulates) come feel the softest parts in the office of hearts...
