

Sabotage

Guided by Voices

I never ever hear you say
I remember when we used to love
You did me wrong, baby
I have you now
It's sabotage
You know it's the work I love
She tried to take me to her world
I don't know why you tell me now
If this is everything you loved
It's sabotage
Baby that's the worst kind of love
Well sabotage is a thing I've thought about
Your sabotage is a thing I want to know
I don't wanna see you
I just don't wanna see you baby
I have a lot of things to say
You don't want to tell me now
It's sabotage
I have a lot for you
It's sabotage
I gotta lot for you
You know what I'm talking about
You heard a lot of people talking about you baby
You heard a lot of people talking about you baby
Sabotage
Yeah that's sabotage
You told me lies baby
??? words are going round
It's happy when I'm up
You hurt me when I'm down
It's sabotage
We got a lot of words are going round
(Play that sad blues song good for me maestro)
(Blood curdling howl)
Ooh, sabotage, sabotage, sabotage, sabotage...
