

You Can Fly Anything Right

Guided by Voices

You can fly anything right
When you're right, when you're wrong now,
I know.
You can fly anything right
When you're right, when you're wrong now,
I know.
If you want to, you'll reach the sun
And I respect you when you're number one.
But if you say so and need it, is your song,
You fly it wrong.
You can do anything well,
When you're right, when you're wrong now,
I know.
You can do anything well,
When you're right, when you're wrong now,
I know.
And if you want to, you'll take the fall
And just to love you, you drop the ball
But if you think so and will it, it shall die
You do it right, you fly it right
