Your Name Is Wild

Guided by Voices

Time to say to you my child Your name is wild

And if you called me in To change the color Your name is wild

And I'll be taking you soon now To read the orange signs And I say now to you so what The useless fade in time

You chose me to read you no lies
Hooray for the day
And I'll pay the angels to keep you, my child
You are safer now
God knows it too
