

If The World Ends

Guillemots

I just about managed to forget you
When you appear in a dream
And you're even more beautiful there than I remember you being
So I've come to decide that fate
Is telling you to not go
And considering this
I want you to know

If the world ends
I hope you're here with me
I think we could laugh just enough
To not die in pain
If the world ends
It won't finish you
You're not the type they can capture
You flit like a fly catcher
They can't pin you down
Can't pin you down

In my dream you're playing with
Buckets of sand
And water was running through both of your hands
And I don't think
I ever heard you speaking
Cause I was too wrapped up in the dream
I was dreaming
So if the world ends
I hope you're by my side
I don't think with you here
It will be too much pain
And when you cry
Darling I wish you'd feel my love
Your heart is way beyond capture
Flitting like a fly catcher
They can't pin you down
Whoa, they can't pin you down
Can't pin you down
Can't pin you down
Can't pin you down
