

## Over

## Guilt Machine

You were saying something deep  
I was feeling incomplete  
You were shaking with conviction  
I was making up my mind

Blacken the sky  
It's over  
Killed by contradiction  
Fixation is all that's left behind

Blacken the sky  
It's over  
Killed by contradiction  
Fixation is all that's left behind

Blacken the sky  
It's over  
Killed by contradiction  
Fixation is all that's left behind

Kill it to life  
It's over  
Dead by definition  
Frustration is all that's left behind  
It's over

You were waiting for a sign  
I was planning my next line  
You were bent on self-destruction  
I was there to load the gun

Blacken the sky  
It's over  
Killed by contradiction  
Fixation is all that's left behind

Kill it to life  
It's over  
Dead by definition  
Frustration is all that's left behind  
It's over

It was all so beautiful  
It was all habitual  
It was all so beautiful  
It was all a ritual

You were saying something deep  
I was feeling incomplete  
You were shaking your addiction  
I was there to find the vein

Blacken the sky  
It's over  
Killed by contradiction  
Fixation is all that's left behind

Kill it to life  
It's over  
Dead by definition  
Frustration is all that's left behind

It was all so beautiful  
It was all habitual  
It was all so beautiful  
It was all a ritual

Blacken the sky  
Fixation is all that's left behind  
It's over  
It's over  
Frustration is all that's left behind
