

# Taking On The World

Gun

You're holding out your hand, are you falling?  
You're talking to yourself, nobody's there  
There's a burning in your heart like a hunger  
You're crying to yourself, nobody cares

When you feel that life is dragging you down day by day  
You've gotta break away

You're taking on the world  
Taking on the world (And I swear they'll never break  
me)  
Taking on the world

Precious time, do we know what we're fighting for  
Taking time, so we don't make the same mistakes again  
Take a look on the other side  
Look at what we will leave behind

When you feel that love is dragging you down day by day  
You've gotta break way

You're taking on the world  
Taking on the world (and I swaer they'll never take me)  
Taking on the world  
Taking on the world (and I sear they'll never break me)  
Taking on the world  
Taking on the world

What's love is it wild sorrow?  
Brave face, is your heart breaking?  
Who cares when you cry freedom?  
It's the right place for the right reasons

You're taking on the world  
Taking on the world (and I swaer they'll never take me)  
Taking on the world  
Taking on the world (and I sear they'll never break me)  
Taking on the world (they'll never take me)  
Taking on the world (they'll never change me)

You're taking on the world  
Taking on the world  
Taking on the world  
Taking on the world
