Niggas don't care, nigga just won't bare  
Nigga only knew powder and the product's all pale  
Still snort pills and my avalanche chills  
Black magic wheels just snappin' at your heels  
That nigga gone, gone to the avalanche chills  
Tryin' to chill but I can turn savage at will  
Let these fuck ass judges slam the gavel out of fear  
I'm pray they rot in hell and shed not a tear  
I'm ridin' for my niggas with the muddy laces  
Up five, see how good God grace is  
This the mob bitch  
Ain't no time for sob faces  
When the hammer hit the share  
That's the law nature another

No prints on the rental, limo tints on the razors  
Foggin' up the windows, been in up the princess  
Every Molly got my body feelin' like I'm out of body  
I'll be higher than above the rim, Amare Stoudemire, I'm buy a hat  
A dummy by the week, just now found a buyer  
Now you know it's 'bout time to raise my body higher  
Pussy nigga you ain't bad, you just dancin' 'round the fire  
Non state searchin' me in action by my fire  
Now what they wanna know?  
How much you spendin'?  
Now what they wanna know?  
How good you livin'?  
Now what they wanna know?  
I tell him on your business ain't none over here  
Brought some cash and some killers
