(Verse)

Motherfucking head to the nose to the face to the wig  
Can't smell my cologne but taste my ribs  
My shit I'ma force it on drill  
Lost 5 pounds in the last 5 hours  
I got a photoshop steal 2 inch out of  
But get me wrong and I'ma shot the whole crowd  
You don't know what you doin' I'ma show you how  
Mirror, scrum willin' out in my salon  
No scrape jacket I'm Jupiter Jack Daniels  
Warrup bitch lemme cock your spaniel  
Wash a nigga drizz, clean out a nigga denzel  
My nuts sweaty but she licked them already  
New bugatti step up on 87 I let it  
I'ma hold on my money take it all with me to heaven  
Bitch we living in hell, how the fuck you a reverant  
Junky , flunky but I keep it, willin down while funky  
Like a nigga should, like a real nigga would  
Fuck all them jelly back fed pecker woods  
I'm on my square feet never seen air  
Racking all these niggers like I never seen the chair  
You looking at my shoes like you never seen a pair  
Slice a sweet swisher put my medicine in there  
I ran out of money now a nigga betting beer  
When Peanut die the only time I shed a tear  
I be hunting for the cunt I'm a pussy predator  
Dropping new bits if the newer one got better hear
