

Bad Bad World

Guster

I'm wide awake
It's the middle of the night
I'm standing in the dark
Waiting for the light

And here I'll remain
'Til the sun is in the sky
Standing in the dark
Waiting for the light

There is love
There is peace in this world
So take it back
Say it's not what you thought

Grab a hold
Take these melodies with your hands
Write a song to sing
Isn't such a bad, bad world

And I say these times are strange
I can feel it in the night
I'm standing in the dark
Holding up for the light

And here I'll remain
'Til the great sun shines
Standing in the dark
Waiting up for the light
