

And it's true he was so young
But you are here
And the moment clouds your brain
You could've even saved him
That means nothing
You could've even been there
That's a lie
How can you blame him for your life?
It's a mental suicide
And it carries you away
Dissolve your fear into one
Dissolve will find a way
Then it's true we aren't immune
But there's a way
And denial clouds your brain
To try and understand him
That means nothing
To try and find the meaning
It's a lie
How can you blame him for your life?
It's a mental suicide
And it carries you away
Dissolve your fear into one
Dissolve will find a way
To right a wrong
To understand
To figure out
It's in His plans
To leave alone
To find a way
To figure out
It's not your fault
And it's the both of you he's ruined
He's torn away all the desire born inside
You could've even saved him
That means nothing
You could've even been there
That's a lie
To try and understand him
That means nothing
To try and find the meaning
It's a lie
To leave alone
To find a way
To figure out
It's not your fault
To see yourself
Your brother wouldn't be proud of you
Proud of you anymore
