

Do What You Want

Guster

Be a sinner or a saint
Take the beauty over brains
On your mark and draw the X's on the eyes
Fill it in or leave it blank
Be the hero or the crank
Under cover with the secret alibi

R
Do what you want
Just say so
Open up your mind
Doesn't matter at all
Ah ah ah ah ah
No one's gonna care or nothin'

So ready or not
Here we come
Walk into the night
Doesn't matter at all
Ah ah ah ah ah
No one's gonna care if we disappear

On your knees or on your back
Under siege on the attack
Gone forever like a darling clementine
Wrap your fingers in a fist
Twist your lips into a kiss
Cross your heart and go into the open wide

R
Do what you want
Just say so
Open up your mind
Doesn't matter at all
Ah ah ah ah ah
No one's gonna care or nothin'

So ready or not
Here we come
Walk into the night
Doesn't matter at all
Ah ah ah ah ah
No one's gonna care if we disappear

And where we goin' it's so far away
I'm by your side
When we're together we can find the place
That's why we are just who we are

R
Do what you want

Just say so
Open up your mind
Doesn't matter at all
Ah ah ah ah ah
No one's gonna care or nothin'

So if you're ready or not
Here we come
Walk into the night
Doesn't matter at all
Ah ah ah ah ah
No one's gonna care if we disappear
