

# Do You Love Me

Guster

We were young, twenty one, all those years ago  
In came a fascination, everything is under control  
Full of life, untried, through thickets and through thorns  
Out came a revelation, everything is out of control

Do you feel it?  
Do you feel it now?  
'Cause we want it, but we don't know how?  
Do we have it, as much as anybody ever has?  
I wanna wake you from your dream,  
I wanna know just who you're talking to  
When your singin' in your sleep  
I wanna find out what it means  
Do you love me?

Now we're fine, all right, but all those days are gone  
We read our constellations, everything is under control  
Are you tired, I'm tired(I'm tired)  
The TV sparks and glows  
The news man gives information, everything is under control

Do you feel it?  
Do you feel it now?  
'Cause we want it, but we don't know how?  
Do we have it, as much as anybody ever has?

I wanna wake you from your dream,  
I wanna know just who you're talking to when your singin' in your sleep  
I wanna find out what it means  
Do you love me?

I got marbles in my mouth  
A thousand words I wanna say  
But it's impossible to spit em out  
I can barely make a sound  
Do you love me?

Do do do do do, do do do do do  
Do do do do do, do do do do do  
Do do do do do, do do do do do  
Do do do do do, do do do do do

Do you feel it?  
Do you feel it now?  
'Cause we want it, but we don't know how?  
Do we have it, as much as anybody ever has?

I wanna wake you from your dream,  
I wanna know just who you're talking to  
When your singin' in your sleep  
I wanna find out what it means  
Do you love me?

I got marbles in my mouth  
A thousand words I wanna say  
But it's impossible to spit em out  
I can barely make a sound

Do you love me, love me?

Do do do do do, do do do do do do do
