

Endlessly

Guster

So come on, love
We can make this right
If you want love
Then come back inside
Cause we had love
We just let it slide

I tried to take your picture; you covered up your eyes
Afraid of what I'd see, afraid of what I'd find
A Polaroid that won't come through, you've disappeared
And all I see is a drawn outline, ghosts in the mine
Marking time

So come on, love
We can make this right
If you want love
Then come back inside
Cause we had love
We just let it slide

Endlessly, we move asleep
Desperately, carelessly
Walk with me
Talk to me
Eventually, we'll get it right

So come on, love
We can make this right
If you want love
Then come back inside
Cause we had love
We just let it slide

Endlessly, we move asleep
Desperately, carelessly
Walk with me
Talk to me
Eventually, we'll get it right
