

## Foot-Long

## Guttermouth

I want to give you all of my foot long  
Unwrap my hot dog and place it in your bun  
Vacation without sun  
Cop without a gun  
That's what she told me  
So I guess there'll be no you  
She sees right through me  
I'm told my shallowness runs deep  
You work the drive thru  
Don't need a guy like you  
Cuz not just anyone will do  
You ain't no heartthrob  
You'd better hold on to your job  
She said I've seen your band  
You guys ain't got a chance  
But now I'm begging you to sing  
That's what she told me so I guess there'll be no you
