

Perfect World

Guttermouth

If I lived in a perfect world
I would spend my days lying in the sun
The party never ends in a perfect world
If your life has hit the skids
Wave goodbye to the wife & kids
I'm ready to move in to a perfect world
Nacho cheese and anarchy
Boy that sure sounds good to me
Every kind of drug is free
In the new America
Shoot your pistol in the air
Celebrate a brand new year
Living leisurely in a perfect world
Everybody's drinking hams
Good by all you straight edge bands
Sit around and get a tan
In the new America
When I turn on my t.v.
Nothing but pornography
No more rated g in a perfect world
Strung out hookers everywhere
Have a picnic feed the bears
Now nobody even cares
In the new America
Nothing in this worlds for free
Cause everything belongs to me
No more green fees in a perfect world
