

Who Do You Think You Are

Guy Clark

I like that word cosmic it's just the way that people
Tend to use it that offends my sense of survival

I love the way you talk honey that's very rock & roll
You said you come from Texas but I don't believe so

Who do you think that you are
To be jivin' me like that
Who do you think you are

Who do you think that you are
To be jivin' me like that
Who do you think that you are

One leg at a time one leg at a time
Honey I'll be you put your britches on one leg at a time
You can't fool me no you can't fool m
Cause I have been to Fort Worth and you can't fool me

Who do you think that you are
To be jivin' me like that
Who do you think you are

You know what the say 'bout havin too much fun
Oh they tell you that it can't be done
But I'm feelin' real good I never have felt greater
I don't believe you can put too much gravy on tomatoes

Who do you think that you are
To be jivin' me like that
Who do you think you are
