

# Diamond in My Hand

Guy Sebastian

Thought I was missin'  
The good life  
Going out every night  
And I let go of what I had  
I found treasure  
But I, traded it in for a dime  
And now I gotta get it back

I know I said it, I know I said it  
And I'll say it again until you get it  
I'm never lettin', I'm never letting go, no baby

I wasted time collecting stones  
When all along I had a diamond in my hand  
Had a diamond in my hand, oh yeah  
I think I'm done collecting stones  
I'm gonna go and put a diamond on your hand  
Put a diamond on your hand, oh yeah

You're probably thinkin', that I'm high  
I've been acting all crazy like  
Just gotta get the message through, babe  
See I was stupid  
But now I see it  
Mistakes made I  
I won't repeat it  
I'm gonna make it up to you  
I know I said it, I know I said it  
And I'll say it again until you get it  
I'm never lettin', I'm never letting go, no baby

I wasted time collecting stones  
When all along I had a diamond in my hand  
Had a diamond in my hand, oh yeah  
I think I'm done collecting stones  
I'm gonna go and put a diamond on your hand  
Put a diamond on your hand, oh yeah

You're more precious than gold  
You're the wind in my sail  
I'm Indiana Jones  
And you're the Holy Grail  
Gonna get you home  
Cause that's where you belong  
As the queen on the throne, ohhh yeah

I wasted time collecting stones  
When all along I had a diamond in my hand  
Had a diamond in my hand, oh yeah  
I think I'm done collecting stones  
I'm gonna go and put a diamond on your hand  
Put a diamond on your hand, yeah

I wasted time collecting stones  
When all along I had a diamond in my hand  
Had a diamond in my hand, oh yeah  
I think I'm done collecting stones

I'm gonna go and put a diamond on your hand  
Put a diamond on your hand, oh yeah

I wasted time collecting stones  
When all along I had a diamond in my hand  
Had a diamond in my hand, oh yeah  
I think I'm done collecting stones  
I'm gonna go and put a diamond on your hand  
Put a diamond on your hand, oh yeah
