

Fail to Mention

Guy Sebastian

Sir there is a girl in this town
I thought I could live without her round
But I can't go on till I make her mine
But I may need your help before I'm out of time

See you feel the earth move whenever she smiles
She loves like a woman but laughs like a child

And did I fail to mention that she is so beautiful
Hair like a waterfall sent from above
And did I bring attention to how she's so wonderful
She could make anyone fall so in love

And I don't know her name or where she lives
Wont somebody take me to where she is
I can't take another second another minute
If not for her face id be losing my faith

See she makes the sunshine on the cloudiest day
You feel like your floating when she looks your way
