

# Out of Place

Guy Sebastian

Out feels like in  
Endings begin  
The grass is baby blue  
The sky is army green

Down feels like up  
I miss you so much  
When or where will you be coming back to me  
And help make sense of it all

Everything's out of place  
Everything's out of place  
My inside out's so upside down  
Whenever you're not around

Fast forward rewinds  
I'm walking backwards in time  
Everything that's new feels like I've done before  
The moon lights the day  
Since the sun lost its way  
You can't hear that you're the one I'm looking for  
I need you to show me the way

Round in a square circle I keep turning  
But everything aligns when I'm align with you

Everything's out of place  
Everything's out of place  
Everything's out of place  
Round and round and round I go

[Chorus x2]
