

# Trade This Love

Guy Sebastian

She gives me the kinda time  
The kinda room and peace of mind  
To contemplate my vanity

She'd walk through a wall of fire  
Knowing I'm on the other side  
She's about everything I need  
And I know

I wouldn't trade this love for anything, for anything  
I wouldn't trade this love for anything, for anything  
But a little bit of her touch

Other lovers always want more  
Been down that road before  
But you take just a part of me

All she wants in my time  
Not my money or my mind  
See this loves never old  
Cos she's living in my soul  
And I know

I wouldn't trade this love for anything, for anything  
I wouldn't trade this love for anything, for anything

She knows how to start the flame  
And keep it burnin' in my veins  
She always understands  
I can call her when I can  
Make no mistake I'm always her man

[Chorus]

I wouldn't trade this love for anything, for anything  
I wouldn't trade this love for anything, for anything  
But another one of her homemade pies
