

# Bloodbath

GWAR

Well I saw the thing that no one should see  
As I became the thing that no one should see  
I became lost inside my mind  
Happens all the time  
I saw a dead body on the side of the road Well, I saw a dead body on  
the side of the road  
The dogs were gnawing on his face  
Then out of the blue some homeless dude came hurtling through space  
He had the most satisfied expression on his face  
As if to say "in this last moment I am truly free"  
Then the dude exploded on the street right in front of me

Get up!  
Think fast!  
Gonna be  
A bloodbath  
Cause you got one shot and you got one time  
And if you feel like starting fires well I do it all the time  
All my life is filled with death it's everything I see  
My minds a muddy mess of jhenkum, crack and PCP  
But death is just another foe, I fight them all the time  
They gonna get me one day - before then I'm gone get mine

He's a creature wracked in pain  
Watch the creature go insane  
See the life go down the drain  
He was one of the two, not just one of the few  
He usually knew exactly what to do  
Now he has left for the stars  
He has left us to play bars

Get up!  
Think fast!  
Coming soon  
Bloodbath  
Cause you get one shot and you get one time  
But if you feel like starting fires well I do it all the time  
All my life is filled with death it's everything I see  
My minds a muddy mess of jhenkum, crack and PCP  
But death is just another foe, I fight them all the time  
They gonna get me one day - before then I'm gone get mine

Get up!  
Dead body  
Get up!  
Dead body  
Get up!  
Dead body  
Bloodbath!  
We fucking play guitars
