

# Bloody Mary

GWAR

Ice world, eternal night, doors are chained and barred  
Toiling slaved die in droves, this life is hard  
There's a Balrog in the woodpile, in the corner, dead canary  
Going down to the dungeon to see my Bloody Mary

Bloody Mary  
Pretty scary  
She knows what to do with the bone I gotta bury!  
Bloody Mary  
She's from the surface world!  
Bloody Mary  
Slutty? Very...  
She used to shave her pussy now it's getting pretty hairy  
Bloody Mary  
She's an American girl!

Torches, chains, sweaty straining flesh  
The womb explodes in a meat-maggot mesh  
The mutant we made was really beautiful baby...  
We fingered and felched it, then sprayed it with rabies...

Bloody Mary  
Pretty scary  
She knows what to do with the bone I gotta bury!  
Bloody Mary  
She's from the surface world!  
Bloody Mary  
Slutty? Very...  
I treat my girlfriends even better than Chuck Berry  
Bloody Mary  
She's an American girl!

Oh bloody, bloody Mary  
Your lips are turgid, your ass is cherry  
I'll never... never let you die...

The women bleeds but does not die...

When you are immortal the space of many years  
Seems just as little as the weight of the tears  
That she cried as she waited as the worms they ate her brain  
I had her animated but you know it's not the same

Bloody Mary  
Pretty scary  
Bloody Mary  
She's from the surface world!  
Bloody Mary  
Slutty? Very...  
She knows what to do with the bone I gotta bury  
Bloody Mary  
She's an American girl!  
In an Antarctic's world...  
And there's nothing but death there for you...
