

Jack The World

GWAR

Rid yourself of all the worthless crap in which you wallow
Here's an iron fist of death for you to swallow
Undead from Antarctica, the signals pumping free
C'mon lets wake the maggot up, it's on
Slave Pit TV
You might sleep on concrete slabs, or be a blithering bohab
Yet your growth is exponential if you consume excremental

Pay to Play
Every single day
You feel your brain cells
Melt away
The appalling calling
Why don't you go away?
We'll jack your world!
Now your in the maggot chamber, corpses fill the charnel manger

Toilets pointing underground, can't forget the sloppy sound
Jack jack the world (3x)

I wanna suck like lovers do I wanna lose a
Grammy too I wanna kick the teeth outta you
