

## Let Us Slay

GWAR

Don't give them a sword and then not let them use it  
Or send them to war and then make them lose it  
This is a bomb, don't want to defuse it  
Death is the answer, go forth and choose it

Let us slay  
Let them slay, let them slay  
Let them slay, let them slay  
Let them slay, let them slay  
The lust for blood won't go away

Let us slay  
Let them slay, let them slay  
Let them slay, let them slay  
Let them slay, let them slay

It is the era of calamity  
And I see this with perfect clarity  
And there never was an illusion of parity  
I've got no time for your crippled Christ

We have no need for your crippled Christ  
And we never lacked for your advice  
We don't have to hide our genocide  
They'll fear us more when they know the we don't lie

It's gone beyond hatred this time  
You love death, yet call it a crime  
I twist the dagger that's deep in your guts  
I'll put an end to it this time

On your knees, pray  
It is your destiny  
On your feet, slay  
Obedience through slavery

Don't give them a sword and then not let them use it  
Or send them to war and then make them lose it  
This is a bomb, don't want to defuse it  
Death is the answer, death is the answer

Total control  
We own your soul

No time for life, time for the knife  
Time for the sword, fetus is cored  
Total mutation, necro-mutilation  
The perfect life form, born for porn

Let us slay  
Let them slay, let them slay  
Let them slay, let them slay  
Let them slay, let them slay  
The lust for blood won't go away

Let us slay  
Let them slay, let them slay

Let them slay, let them slay  
Let them slay, let them slay

We've got no time for your crippled Christ  
And we never lacked for your advice  
Lie after lie, lie, lie  
I do believe its almost time

The crippled Christ, the crippled Christ  
The crippled Christ, the crippled Christ  
The crippled Christ, the crippled Christ  
I do believe it's almost time

You're always calling for the sacrifice  
And the body count is very nice  
Lie after lie, lie, lie, lie  
I do believe it's time do die

Let us slay
